PREFACE

Dear Brothers & Sisters,

At present we need the heaven to enjoy the life without fear, worry and tension. So, the first man on the earth made the weapon to kill the animal to save himself and lead the life by eating animal flesh, after some period the man as a superman with the unlimited thinking power discovered the nature's behavior, planets movements and everything in this universe.

But the human birth is excellent with unlimited thinking power on earth, so with those powers man gone to the moon and came back safely, invented Aeroplane etc. to fly high in the World.

This book presents a view on how to use the planetary positions and astrology as science to give birth to super humans and convert this world into heaven.

THE TRUTH THAT GRANDPA BELIEVES

My dear Chandu, Where are you?

Iam here grandpa – please come here.

Why are you so dull – What is the matter?

I don't know grandpa – please tell me something.

O.K. - me as a lucky person, enjoyed my life with hard work and by doing help to others, but as an unlucky person sometimes faced somany troubles by doing help to the bad people.

OK Grandpa. Who are "you" in this world?

I am a conscious being or vital breath with the human body having unlimited thinking power in this universe - For example, Vapour created on the hot water by the heat of fire. Like that once upon the time – Some thousands of the years back - on the earth the men and women also created along with the Birds, Animals, etc. by the Super Natural power of the universe. But very small molecule can become as the biggest tree of the World. Like that the man only can become as the creative god of the nature.

What do you want?

I want to lead my life with happiness, health & self–satisfaction – **Some years back** in the North India the Superman with his soul power by standing in the air, from the 5 feet height of the earth, everyday prayed that the Sun is God in the sky. The man can get the more power of the soul – by get the win of more than his capacity. Such a man will be alive at the World after death also by the name.

What is the life?

Experiencing different mental states and physical states such as happiness, sorrow, health and ill-health with human body is life. But for the better family life we should look for the soul beauty of the life partner along with education, property, etc. Love is god, Love is great. Doing harm to ourselves is the ignorance, if any body feels that this body is not ours, along with this world – there is no worry. The great historical construction alived 3 thousand years, but collapsed by the earthquake in the **China**. The snow hills called as Himalayas, sofar getting up, but now getting down in **India**. The Animal Dinosar, etc. was disappeared in the World! Nothing is permanent except the universal movement.

For example, 7 seas are visible as one sea - and as

one Family. But, The people are – man or woman – married or unmarried - with children or no children - with sons only or daughters only - brilliant parents with innocent son - innocent parents with brilliant son - Gentleman son is crowd – but, crowd man son is Gentleman – with good habits & bad health – with bad habits & good health – different ages of death – because of different power of Nine Planets at the birth time, connection and disconnection -birth and death happening to the people.

So, now what is your duty?

By doing hard work - I should know the truth which will give the happiness. And we should know as the duty, what we need as long as we are alive in this world. Mental Richness is greater than all. I should increase the human personality of the mind. Super Knowledge of the soul will give the heaven as the God.

What super knowledge of the Soul ?

Getting deep Answers of the Questions – Before birth who I am ? and now who I am ? – What is my life goal ? - After death who I am ? is the super knowledge of the Soul.

What is your goal?

By knowing the life true and getting the result is the goal of the man life - By following the truth, sharing of the truth is the goal of the human life to everybody.

Howmuch TRUTH we should know?

TRUTH is the ENDLESS. But, we should know the truth of life. **For example** on the earth one of the first child died within 5 days. Then the child soul power gone to the unlimited superpower, because the child was created by the superpower. So, we should feel that the soul power goes to unlimited power, visible body goes to visible earth – So, now the man should become as the lover to all. Sacrify is the description of the Love. If anybody feels that I am so lucky than one crore of the people will get happy. But, if anybody feels that I am bad luck than somany people will get sorrow. In the **Monaco** country, with happy average life period is 94 years. So everybody with very happy should get more Life period by the proper way of the Life system. Man is made by the Man Power. So, by the endless Truth we should know the history of the man also.

What is the Man history?

We came to know with the history - 8 thousand years back man covered his body, with the dry skin of the animals to protect the winter season - We

killed the man also along with animals to please Gods - We made the very early marriages to young ladies - and after death of young lady's husband -we thrown out the young lady also in the fire along with the husband dead body. We made the marriage to the dead body – and with belief arranged the first night programme also. We spoiled so many family lives with our ignorance.

What is the belief?

Without proof accepting is the belief. One Tiger cannot kill the 10 Tigers. But one man can kill the people of one Crore. So, to avoid such dangerous situations, belief was created with the love and affection of the people. Once upon a time, man believed the weapon, fire, tree, hills, etc. as the God. But now accepting the statue. Once upon a day innocent people's leader gone to the highest hill on the horse and after came back told to the innocent people that he talked to the God. Then, innocent people believed the same. So, belief is very necessary for the peaceful life to the man.

What is foundation of the New World?

Mind concentration with thinking power - Man became as a superman. Once upon a time in the forest – fire was created by rubbing of the two parts of the tree. Then the man found the dead animal in the fire - while eating the dead animal flesh, he found that the boiled flesh was very tasty than un-boiled

flesh. Then he prayed the Fire as God. And in this way step by step found so many-which will give happiness to all. And now found the way also to give the heaven to all. Sofar we believed that the Earth is like a Table. But now we could see the Truth physically from the moon that the earth is like a football.

But, even now without clothes, so many tribes are there in the forest of the **desert** – which is in between of the 7 seas. **But for them no God was born - will not born.**

By Rebirth as a man is good or bad?

If the opportunity is in our hands - we should born as a man to lead the life with health, happiness by doing help to others with love and affection. Because birth of human being is very precious opportunity in this world. The man, who loves all the people is the **God**. Married couple should give birth to **2 children only**, then the world population will be in the normal way by the better Fate.

Who can change the Fate?

Doctors can change the fate of the Man, with the science as the superpower. Doctors saved the World also by the Birth control operation. Man is in the Superpower & the Superpower is in the Man.

What is Super Power?

Telling the truth of hidden Power of Astrology, etc.

What is the Astrology?

Astrology is one part of the Science - Assessing and revealing the 9 planets power is the Astrology.

- 2500 years back astrologers told future events of a child based on planets position at his birth time that "in future this child will become as the superpower of the world", he was none other than **Lord Gowtham Buddha.**

What is the planet?

Planet is with the hidden, high level Nuclear Superpower –just like a Foot Ball filled with the air.

Planet connection with Human life – How it is possible?

Rocket is on the planet, but on the earth remote is directing the Rocket. - Like that since the birth of human life different events happens by getting the rounds of the 9 planets as the **Time Wheel** on the Earth. For example since formed the Earth in the Universe getting the rounds at the normal way. So, the Dark & Light happens everyday on the Earth. All planets moving at normal way.

Man walking on the Earth with magnetic power of the earth. But on the moon cannot walk. Because moon is not having sufficient magnetic power. Like that with one kind of power, the **Eagle** as one of the

birds can fly 108 hours in the sky without food, rest also - Fish leading the life in the water with some other power– but on the earth the man with unlimited thinking power inventing the secrets of the universe. Like that 9 planets different powers found the scientists called as **Maharshi**.

Sofar no God gone to the moon. But now the Superman gone to the Moon and came back safely. Now the common man also seeing the World behavior with **Smartphone**. And now distributing knowledge very fastly to the World - with the high technology of the science. So Science is the Godess. Scientist became as the high level God of the Human World.

Everything is Science. The movement power is at anywhere of the universe. So, the Frog was created by the Rock power - the ice ball was created by cool air of Refrigerator in the house. Fish, etc was created by the power of water-Lighting of the Sun is directing the sunflower - which are giving the sunflower oil. Every molecule got some kind of power and also got connection with some other power -Power is unknown. But, there is a power. Iron wheel is running only by the power of Magnetic Ball. But not with Gold Power.

Earth is called as the secondary planet - with the different kind of Power. So, the earth is getting the rounds by the universal power. The union of

uncountable planets is the universe, visible sky is just one part of it.

Why all are not interesting the planets ?

Now the so many people are not accepting the **9 planets** superpower, with the view of that fate is fate, nobody can change the fate.

But now Doctors changing the fate of human world with operation by control of more people generation. We are changing the man fate as the fight of **brilliant power with planet power** - stopping the birth of children –Life period is increasing by the heart operation, etc. And also the average life period of the human world. But we could not stop the birth of – bad man, mad, innocent, impotent and the bad luck man, etc. But now we are getting the winnings by the fight of --- **Science with Science**. So now the superman can make this world as the heaven –with the science of 9 planets.

Every day 108 different kind of fates will come. With one of those fates Man birth is happening. Every day good fate also will be there. For example sweet water in the sea, which is in the Russia called as BIKAL sea. So, now we can get the Baby fate as Doctor, Actor, Engineer, Politician, and God or Goddess, etc. at our choice. Then the Parents fate also will be changed to the better peaceful life. So, now by giving the good fate **– parents should become as the Super God of the Child**. The man fate can be changed by the family member's fate. For

example if the Mars planet fault in the horoscope that can be changed by - long life fate of the Life Partner - in the horoscope.

So now what is our Duty?

We should make this world as the heaven - Science found that the universe was formed some lakhs of crores of the years back. But earth was formed 420 crores of the years back – but on the earth man as the superpower invented so many facilities for enjoyment of all the people.

Sofar we are feeling that our fate was given by the God. But, hereafter our babies should feel that our fate was given by the parents to enjoy throughout the life as the heaven.

So, now with the science by operation we are getting **one or two - male or female**- as we like. And now the man is making the **heaven for his family**- by operation at particular time, good health to the mother and good luck to the baby. But now we should get all our babies, as good lucky babies with good knowledge and psychology to make this world as the heaven.

How can we get – all the Good lucky Babies ?

Sofar the man leading the life with belief and going up with the Science. We created the God in the temple. We made the **ROBO** as the servant. But, sofar

we could not make this World as the heaven with the natural delivery babies. So, now Doctors and Pandits can make this World as heaven with super babies – by the pregnant lady delivery operation – at a particular time as the science of Astrology.

Now the Pandits are before fixing the particular time for marriages, etc. So now beforely with **Astrology**- pandits can fix the particular – **Successful Operation Time** for good health to the pregnant lady and to get the **good luck baby** with good knowledge and psychology, to make this world as the Heaven - If all people believe planets and follows, the world will become as the Heaven. Anything is possible to the man thinking power.

"No death to the truth".

How can we get the knowledge of Astrology?

Please see the picture to get the basic knowledge of the astrology for the anybody horoscope.

For example If Jupiter as owner in the 1st place – good luck. If the Jupiter, Mercury, Venus joint at 2nd or 8thor9thor 11th places can tell the events of Past, Present, Future also with the Hidden Power. Positive Moon connection with Positive Jupiter – good psychology. If in the first place of horoscope, Mars with North Lunar Node, the height will become short. if Venus in first place good personality – if 1st or 11thplace owner connection with 12thplace owner at anywhere, Financial growth slow – if 1st&7th place

owners joint at 7th place very good married life. If North lunar node at 11th place 90 years life. If Jupiter is in 5th place as a owner of 5th place will get male child – if Venus in the 5th place as the owner of 5th place – will get female child – Very crowd planet in the 5th place – no children. If Virgo 1st Place, Jupiter with Venus at 6th Place – Impotent child. Saturn at 12thor 8th place not good. Like this good or bad the result we can find so many with knowledge of astrology. **For example** astrologer told to the married lady with her planet report of Horoscope, that she will get pregnant after two years and she will get the male child – and after two years the doctor also told with her physical report, that she is pregnant of 5th month and will get male child. So at the 9th month, the married lady became as mother of male child – for example **Some years back**, The America President election declaration was in pending more than one month, because of both two candidates got equal votes and not compromised. But after the **Mars planet** change of the place –on the same day, both are compromised and solved the problem – Human psychology connected by the power of planets.

The planet power & physical power is the nuclear power. So hereafter everybody will get the knowledge of the astrology as one part of the Science. Then the India will become as the **Kohinoor Diamond** and the human world will become as the Super World.
